

HighLINER 2

Outdoor and indoor linear lighting

HighLINER 2 offers natural white illumination for soffits, awnings, and wall washes. It's easy to install for both new construction and retrofit. Easily daisy chain up to six 1,2-meter luminaires using lead wires located on both sides of the fixture. The co-extruded plastic housing diffuses the light and protects the luminaire to provide long operating life. This reduces maintenance costs, speeds up payback periods, and increases energy savings.

- Easy to install
- Lightweight fixture
- Illuminates soffits evenly
