

PosterBOX Slim

Side illumination for shallow light boxes

PosterBOX™ Slim washes light across single-sided and double-sided displays using FanFlare™ lens technology that optimizes the light inside the box. The result is uniform light without the stripes associated with fluorescent tubes. The narrow silhouette of the side mounted modules makes PosterBOX Slim an excellent option for single-sided sign cabinets as shallow as 50 mm and double-sided cabinets as shallow as 100 mm.

- Excellent white light intensity and uniformity
- Optimal for applications as shallow as 50 mm:
 - Indoor textile prints
 - Movie posters
 - Cabinets using FlexFace®

Specifications

Part number	6500 K	701946-6WXLP1
	5000 K	701946-5WXLP1
Dimensions L × W × H	124 mm × 26 mm × 16 mm	
Viewing angle	15° × 43°	
LEDs per module	3	
Modules per meter	6,5	
Light throw	0,5 m maximum to center of box	
Minimum cabinet depth	Single-sided	50 mm
	Double-sided	100 mm
Operating temperature	-40° C to +70° C	
Protection class	IP66	
Special features	FanFlare™ lens technology Wire stretch feature for electrical connections	
Power per module	1,38 W	
Efficacy	87 lm/W	
Power capacity	38 modules per SloanLED 60 W 12 VDC power supply	
Fastening	Peel-n-stick and mechanical	
Packaging	38 modules per tray, 3 trays per carton	
Colour temperatures	6500 K, 5000 K	
Lumens per module	120
